

## i-Kiosk 100 Plus

Premier Color Multimedia  
Fingerprint  
Time Attendance &  
Access Control System

The i-Kiosk 100 Plus goes above and beyond the call of duty by not only functioning as a door access and attendance device, but also as a medium of communication to those around it. Its full colour touch screen display which is mainly used for configuration, can also be used for displaying short messages, videos, and music for the purpose of company branding and advertising. Integrated with the device is also a high quality lens that captures a photo of the user during verification, whether successful or not. In addition of a USB flashdisk connection, this device also provides the option of syncing data through a Wi-Fi connection. Complete with the availability of short cut key functions, this model of biometric device proves to be user-friendly, customer-friendly and a value for its money.

### Multi Verification Methods

Is your fingerprint damaged due to injuries? We think ahead. Our device has password and RFID card verification to fall back on should your fingerprint fail to be read.

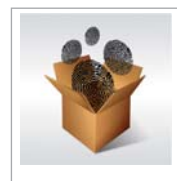

### Camera

Don't compromise on security! Every time a user attempts to verify into an authorized area, this hi-tech camera captures a photo of the user. This feature is useful in warding off vandals, and in duress situations.

### Wireless Data Management

That's right. With the USB flashdisk port and the Wi-Fi data communication, syncing of data can now be done without any wiring hassle.

### Supersized Capacity

Get up to 10,000 fingerprint templates and 200,000 transaction logs – more than enough to fulfill the requirements of an SME.

### Shortcut Keys

Program these keys to take you to commonly used functions in just one step. Did we mention that we make things easy?

### T9 Input Method

Reduce your time and effort by using the T9 method of typing when doing data input. With T9 Input, you just need to press a button once for the alphabet that you want.

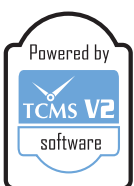

### Mini TV

Take your full colour touch screen display to the next level. Display a company ad, corporate song, or even a short entertaining clip for your customers/guests to view in your waiting room.

### Manage Your Data Easily

Administration is easy with the bundled software! FingerTec's TCMS software allows you to generate reports, monitor attendance and integrate FingerTec with a third party system.
